

## The most productive devices for Education

Surface brings all the best tools for teaching and learning together in one device. It has the full power of a laptop in a lightweight touchscreen tablet form. And, with best-in-class digital inking capabilities, Surface can replace pen and paper in your classroom.

### Pen and paper. Evolved.

Surface provides a precise, on-screen digital pen input that enhances student learning through handwritten note taking. It allows students to more accurately express their ideas and gives them the freedom to solve complex problems and equations.

### Any learner, any age

Cater to any learning style or any age with one device. Create personalized learning experiences for each student through all forms of learning activities—reading, writing, presenting, recording, touching, and typing.

### Ultra mobile

Surface supports student learning anytime, anywhere. At only 1.4 pounds and 10.8 inches, Surface 3 is lightweight and thinner than most books—making it easy to carry. Built-in Wi-Fi and 4G LTE<sup>1</sup> allows students to do their work on the bus, at home, and at school.

*"Using a precise digital pen increases a student's ability to produce ideas, solve problems, communicate and learn during note taking and knowledge creation."*

— Sharon Oviatt, PhD in Experimental Psychology and author of *The Design of Future Educational Interfaces*

## OneNote Class Notebook—a framework for teaching and learning

Teachers using OneNote Class Notebooks can manage all their lesson plans and class content in one central location. They can create and deliver interactive lessons in the collaboration space, stay organized using the content library for handouts, and provide student feedback in each students' private notebook.

To learn more about how Surface + OneNote can replace pen and paper in the classroom visit [onenote.com/classnotebook](http://onenote.com/classnotebook).

# The most portable, and the most powerful

## Get the most from Surface with these accessories

**Type Cover**  
Click-in keyboard with trackpad doubles as a protective cover.

**Surface Dock**  
Easily transition Surface Pro into a complete desktop workstation.

**Rugged Case**  
Keep your Surface safe by adding a protective case.

**Surface Pen**  
Write naturally, draw, or annotate, even on web pages.

**Wireless Display Adapter**  
Present from anywhere in the classroom

**Extended Services**

- 1:1 tech support
- Accident protection
- Quick replacement

**973-895-6161**

**16 Old Brookside Road  
Ste. 1 - Box 225  
Mount Freedom, NJ 07970**
